# **Programme Specification**

Title of Course: MSc Leadership and Management in Health

Date first produced	31/07/2010
Date last revised	09/06/2025
Date of	02/09/2024
implementation of	
current version	
Version number	4
Faculty	Faculty of Business and Social Sciences
Cross-disciplinary	
School	Kingston Business School
Department	Department of Management
Delivery Institution	Kingston University

This Programme Specification is designed for prospective students, current students, academic staff and employers. It provides a concise summary of the main features of the programme and the intended learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes and content of each modules can be found in the course VLE site and in individual Module Descriptors.

## **SECTION 1: GENERAL INFORMATION**

Award(s) and Title(s):	MSc Leadership and Management in Health
Exit Award(s) and Title(s):	Pg Cert Leadership and Management in Health Pg Dip Leadership and Management in Health
Course Code	
For each pathway and	
mode of delivery	
UCAS code	N/A
For each pathway	

Awarding Institution:	Kingston University
Teaching Institution:	Kingston University
Location:	Kingston Business School, Faculty of Business and Social Sciences, Kingston Hill
Language of Delivery:	English
Delivery mode:	Mainly online (between 41-99% of scheduled L&T hours delivered online)
Learning mode(s):	Part-time
Minimum period of registration:	Part-time - 1
Maximum period of registration:	Part-time - 4
Entry requirements	Kingston University typically uses a range of entry requirements to assess an applicant's suitability for our courses. Most postgraduate taught course requirements are based on having been awarded a relevant undergraduate degree and are normally coupled with minimum grades expectation of 2:2, specific courses in certain areas may have a stricter grade requirement. We may also use interview, portfolio and performance pieces to assess a person's suitability for some courses. We recognise that every person's journey to a postgraduate taught education is different and unique and in some cases we may take into account work experience and other non-standard pathways onto University level study. Additionally, all non-UK applicants must meet our English language requirements.

	Please see our course pages on the Kingston University website for the most up to date entry requirements.
Regulated by	The University and its courses are regulated by the Office for Students
Programme Accredited by:	N/A
Approved Variants:	This programme is approved to use 15-credit modules.
Is this Higher or Degree Apprenticeship course?	No

### **SECTION 2: THE COURSE**

#### A. Aims of the Course

The specific aims of the Leadership and Management in Health programme vary according to the award being studied, but common aims among all awards are:

- To equip students with the knowledge and skills required to enable them to enter and/or continue at a more competent level in the professional practice of health management.
- To provide a critical understanding of the body of appropriate academic knowledge relevant to leadership and management and its application in practice.

The further aims for the PgCert are:

- To provide students with an understanding of the context of strategic health management and governance issues
- To develop their leadership competency and ability to manage change
- To understand the various concepts of quality in relation health services The further aims for the PgDip are:
- To provide students with an understanding of the sources and uses for information in healthcare, and of the tools available for its capture and manipulation
- To impart an understanding of how money enters healthcare, how it is distributed and of mechanisms for assessing the value of and reasons for investment
- To inform students about evidence based marketing practice from the private sector having an application improve public service design and delivery

The further aims for the MSc are:

- To further extend the range of practical skills acquired
- To impart knowledge about the various research methods that are available to support original workplace projects
- To advise students of the ethical considerations that are required when gathering/using sensitive data or to implement change
- To provide an opportunity to research a specific area of leadership and management in health in depth by means of a Masters level dissertation.

## **B. Programme Learning Outcomes**

The programme learning outcomes are the high-level learning outcomes that will have been achieved by all students receiving this award. They have been aligned to the levels set out in 'Sector Recognised Standards in England' (OFS 2022).

Prograi	Programme Learning Outcomes								
	Knowledge and Understanding  On completion of the course students will be able to:		On completion of the course students will be able to		Subject Practical Skills  On completion of the course students will be able to				
A10	MSc level:Demonstrate knowledge and critical understanding of how to undertake independent research that contributes to the development of management practices based on evidence.	B3	Undertake critical self-reflection of the learning process and experience, and demonstrate how this reflection and learning can be utilised to enhance future performance.	C2	Identify and utilise appropriate research strategies, methods and sources of data and information in order to formulate, design, manage and execute a substantial research project, and present and communicate the research findings in an appropriate form				
A9	PgDip and MSc levels:Demonstrate knowledge and critical understanding of how public and private sector finance and how to apply principles appropriately to cost management and budget control.	B2	Evaluate issues, problems and opportunities associated with the healthcare sector and how the various functions within healthcare commissioning and provision can work collaboratively to address these.	C1	Demonstrate skills of analysis and synthesis, and apply them to issues and decisions associated with the healthcare sector				
A6	PgDip and MSc levels:Demonstrate knowledge and critical understanding of how evidence can be used to inform and evaluate practice of leadership and management in health.	B1	Analyse, interpret and healthcare activity, finance and associated data and information sources and demonstrate a critical awareness of the relevance and limitations of such analyses.	C3	Communicate effectively in written and oral forms in English in a business context.				
A7	PgDip and MSc levels:Demonstrate knowledge								

	and critical understanding of			
	how information can be used to			
	make well-informed decisions as			
	a strategic manager.			
A5	PgDip and MSc			
	levels:Demonstrate knowledge			
	and critical understanding of			
	models and strategies to lead			
	and manage change and			
	innovation in service delivery.			
A4	All levels:Demonstrate			
	knowledge and critical			
	understanding of how service			
	quality and performance is			
	measured, monitored and			
	achieved.			
A3	All levels:Demonstrate			
	knowledge and critical			
	understanding of the key factors			
	influencing human behaviour in			
	organisations at individual,			
	group and organisational level.			
A1	All levels:Demonstrate			
	knowledge and critical			
	understanding of the changing			
	contexts of health services			
	requirements from different			
	stakeholder perspectives.			
A8	PgDip and MSc			
	levels:Demonstrate knowledge			
	and critical understanding of			
	how to apply marketing			
	principles appropriately to			

	public, private and voluntary sector organisations.		
A2	All levels:Demonstrate knowledge and critical understanding of the social, economic, political, ethical and technological developments which inform and influence health services strategy, policy, and practice.		

#### C. Future Skills Graduate Attributes

In addition to the programme learning outcomes, the programme of study defined in this programme specification will engage students in developing their Future Skills Graduate Attributes:

- 1. Creative Problem Solving
- 2. Digital Competency
- 3. Enterprise
- 4. Questioning Mindset
- 5. Adaptability
- 6. Empathy
- 7. Collaboration
- 8. Resilience
- 9. Self-Awareness

## **D. Outline Programme Structure**

The MSc programme consists of seven modules.

The minimum requirement for a Postgraduate Certificate is 60 credits, gained by completing year 1 of the programme, comprising one 30 credit points module and two 15 credit points modules.

The minimum requirement for a PgDip is 120 credits; this is gained by also completing the second year of the programme, comprising one 30 credit module and two 15 credit modules.

To complete the MSc programme, the student must also take the 60 credit Research Methods and Dissertation module in the second year. A student must complete 180 credits for a Masters degree.

All students will be provided with the University regulations. Full details of each module is provided in the module descriptors and student module handbooks.

#### Exit Awards at Level 7

Students exiting the programme with 60 level 7 credits are eligible for the award of Postgraduate Certificate.

Students exiting the programme with 120 level 7 credits are eligible for the award of Postgraduate Diploma.

(Where appropriate – specify if there are any core modules that students must achieve for either of the exit awards)

Please note pre-requisite requirements for master's courses should only be set where there are defined progression points in the course where assessment boards have ratified module outcomes

## E. Teaching, Learning and Assessment

The learning process comprises the following: tutor-led learning through classroom contact time, tutor-directed independent study, and student-determined independent study. Tutor-led classroom sessions are used to facilitate the reinforcement of key concepts and principles to which students will have been introduced in directed preparatory reading in the associated study packs and/or text books provided. Various participative teaching methods are used in these sessions, such as case study discussions, role play exercises, computer laboratories, and group exercises with feedback presentations. This approach is promoted as the most appropriate way of

encouraging understanding, analytical thinking and reflection on the underpinning theoretical frameworks, and their application to management practice, using the students' own experience of a range of organisational contexts. Tutor-directed or student-determined independent study associated with reading and research for coursework enables students to assimilate further the knowledge and reflect on its application. Library and website searches, substantial primary research undertaken within an organisation and informal study groups are used to facilitate this process. Students are encouraged to participate in the lectures and seminars held by the SWAN institutes and other activities provided by KU and the alliance partners.

The course supports the use of action learning sets to develop "communities of practice" within each cohort of students in order to provide for mutual support and encouragement, sharing of learning, and in recognition of the fact that learning is a social process, not simply or even predominantly an individual one.

The programme is supported by blended learning materials to maximise flexibility and access. The course team is experienced in the use of Canvas Learning Management System which is available to both tutors and students either whilst on the campus or from home or work. Advantages for students include access to course materials whenever and wherever they are; flexibility of study time; reduced need to attend classes (which can also be scheduled at more convenient times); ready access to tutors, and peers through email and bulletin-board facilities. For tutors, ICT provides a ready means for distributing course materials; communicating with students; responding to general enquiries in a format accessible to all students.

The programme also encourages Technology Enhanced Learning through the use of online resources and discussion forums as well as tutor facilitated online group learning.

To reflect the participative approach to achieving the teaching and learning outcomes, summative assessment of each module takes a variety of forms: individual and group exercises, computer-based tasks, case studies, and written reports. Throughout there is an emphasis on the application of skills and knowledge to work-based contexts and constraints.

All students have the opportunity to explore the application of theory to practice through the major assessment vehicles for the award of the Postgraduate Diploma. Several of these require students to identify an organisation as the focus of their research. This will often be the students' own organisation, or it may involve visits to a different organisation to conduct primary research with key personnel in order to investigate the issues identified. Students progressing to MSc may locate their research project within their own organisation or spend several weeks in a host organisation undertaking research for their dissertation.

The assessment strategy reflects the aims and learning outcomes of the programme. It is designed to assess the knowledge and skills essential to meet the overall requirements of a Masters degree, as well as the specific knowledge requirements of individual subject modules.

## F. Support for Students and their Learning

Students are supported by:

Module leader for each module

- A Course Director to help students understand the programme structure
- A Personal Tutor through the Course Director
- Technical support to advise students on IT and the use of software
- A designated programme administrator
- An induction session at the beginning of the programme
- Staff Student Consultative Committee
- BLASC (Business and Law Academic Skills Centre)
- Canvas a versatile on-line interactive intranet and learning environment
- Student support facilities that provide advice on issues such as finance, regulations, legal matters, accommodation, international student support etc.
- Disabled student support
- The Students' Union
- Careers and Employability Service
- Guest speakers from other academic institutions, the professions.
- The Faculty runs a 'Strategy into Practice' lecture series which take place every Thursday and involve senior representatives from a range of companies attending the University to speak to students.

## G. Ensuring and Enhancing the Quality of the Course

The University has policies and procedures for evaluating and improving the quality and standards of its provision. These include:

- Continuous Monitoring of courses through the Kingston Course Enhancement Programme (KCEP)
- Student evaluation including Module Evaluation Questionnaires (MEQs), the National Student Survey (NSS)
- Internal and external moderation of graded assignments

#### H. External Reference Points

External reference points which have informed the design of the course. These include:

- PSRB standards
- QAA Subject benchmarks
- Other subject or industry standards

## I. Development of Course Learning Outcomes in Modules

This table maps where programme learning outcomes are **summatively** assessed across the **core** modules for this course. It provides an aid to academic staff in understanding how individual modules contribute to the course aims, a means to help students monitor their own learning, personal and professional development as the course progresses and a checklist for quality assurance purposes.

Module Code		Level 7							
		ВН7636	BB7303	BM7309	BO7304	ВН7302	BH7314	BA7305	
	A10	S
